Shawnigan Lake  
School

**W**hat exactly is Shawnigan Lake School? So many elements make up the full Shawnigan experience. From the day we arrive, nervous and wondering, until the day we pass by the wrought iron gates for the last time, we are creating memories. Every one of us will leave a piece of ourselves here at Shaw, never to be forgotten. Throughout this book we have hoped to capture just a few of those memorable moments.

# The first pieces

Welcome to grade 12! Four Grads set the tone for the new year.

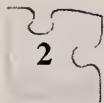

*Hot on the heels!* Brett closes the gap on Kippy.

*A little chilled?* Elaine and Alanna look slightly cold just after coming out of the lake.

*Standing in the rain!* Today is not the day for a run around the lake.

The first few weeks at Shawnigan can be difficult. Everyone is getting used to the place and to the new roles that they have to play. The very first day when the new students arrive, the Grade 12's are here to welcome them. This may be intimidating but tea in the main gardens and games in the gym help make everyone feel at home. Within two weeks of being at Shawnigan everyone has had the experience of running around the lake and jumping into that lake..... in the same day! The 'Round-the-lake Relay' gets everyone outside and running for their House. It's also a time for school spirit to shine through and for people to make new friends. Next is Interhouse swimming, the first Interhouse event of the year. New students first encounter just what House spirit means. While they jump in the lake, fifty or so other students cheering for them from the beach makes it very hard for them not to get excited about their house. The beginning of the year is often the hardest and scariest but events like these help people feel comfortable and happy in their new home.

Five years of happiness and tears, joy and sorrow. From the Grade 8 expedition to Grade 12 provincials, we've shared the common bond of 5 years at Shaw. Some of us have excelled in sports, some in the arts, but we've all excelled at Shawnigan. It is time to look back with fondness to our tears, laughter, heartbreak, and growth. We've finally learned the pride of the stag. The five year bond is a puzzle that will never be broken apart.

Sawmigan celebrated its fourth International Week in November. As usual, this popular triennial event involved nearly all the School in one way or another and was enjoyable and educational. We are most fortunate to live in a country that has such a wide multicultural background and to belong to a school that is home to a very diverse student body. International Week celebrates this diversity and is, hopefully, a vehicle for helping us to come closer together as World citizens with an understanding not only of other cultures but also of the difficulties that others on our planet face. The opening address by Mr. Charles Peacock, the wonderful Chapel services and, new this year, the student-organized Third World Lunch all helped to reinforce this theme. The lunch (rice and water in a cafeteria stripped of all furniture) not only gave us a tiny insight into the difficulties of others but also helped to raise over \$1000 for SEVA - a volunteer organization that performs eye operations in India. These events were in addition to traditional happenings such as the ever-popular Food Fair, foreign movies, workshops offering an almost unbelievable variety of cultural activities, face painting, English Tea in the foyer and the closing event, a Stageshow featuring student talent with themes from around the world. We look forward to the next time - all you Grade 8's and 9's start thinking about the year 2000!

The new Derek Hyde-Lay pavilion, donated by Mr. J. Lecky, is a wonderful new facility. It will allow people to watch the numerous rugby games in comfort and out of the rain, and will provide a much-needed centre for group activities. The new members of staff have brought a fresh enthusiasm to the school with their varied backgrounds: from Scotland (Mr. A. Boccoli), from Australia (Mr. P. Saxby) and from Eastern Canada (Mr. P. Ganley and Ms. W. Woolven). We also welcomed new House Directors (Mrs. A. Stapff and Mr. M. Wyatt) and coaches (Mr. J. Under, Mr. C. Stapff and Mr. R. Wickett).

## Krazy kayaking!

*"the programme was ocean and white-water kayaking"*

This year the Outdoors programme was split into two different groups, ocean kayaking and white-water kayaking on the river. The ocean group started with a trip to Portland Island, where they spent a cosy night under the stars before heading back to Cowichan Bay the next day. A few weekends later, they set off for a three-day trip which started near Harmac and had Valdez Island as the first stop. The next day they camped on Tent Island before returning back to Cowichan through the Northern Gulf Islands. The ocean kayaking group would like to thank "Officer Boyles" for keeping the group in line, "Rambo" for the gourmet meals and Mr. Yates for everything he did for the group and all the hard work he put in.

The white-water group spent a little more time in the classroom for they were working towards earning their Swiftwater Rescue Certificates. In the end, twelve members qualified. They started the term off with a wonderful trip to Long Beach to do some surf kayaking. The weather was perfect and so were the waves! A few weeks later the group was up at 4:30 am eating at Tim Horton's...again! They drove up-island to the West Coast where they put their kayaks in the water in the pouring rain and headed for Clayoquot Sound. The group had a fun, but rough, weekend huddled under a tarp while the rain thundered down. Finally, the group was also able to get on the Cowichan River four different times for some exciting waves, rolls, and swims. The group would like to thank Mr. Yates for taking them to Clayoquot Sound and Mr. Kennedy and Mr. Sigmund for all the hard work they put into the group and for making it a great experience for everyone.

## A Recreational Experience

*"all who participated enjoyed a healthy, well-rounded experience"*

Under the guidance of Mr. Black, Mr. Candelaria and Mr. Austin, all those who participated in Recreational Raquets enjoyed a healthy, well-rounded experience. With cooperation from the late autumn sunshine we vastly improved our tennis skills. When the grey clouds began to cover the skies we sought shelter in the gym where our squash and badminton skills were honed. Occasionally a few souls would head towards the assembly hall where they would partake in some table tennis (This is actually called rec for a reason). On behalf of all the people in this sport I would like to thank our coaches for a great season.

First term rowing was a one of fun and sun. We had a couple of regattas which were full of excitement. We may not have been the best, but we definitely had the most spirit. We were a small team of boys and girls and although not all of us were experienced at first, we were a crew of many talents. Our coaches, Mr. Stapff and Mrs. Platt never failed to surprise us—like putting Pete in the water even after he flipped the first time! We would like to thank them for all their support and coaching and we look forward to rowing with them in the coming terms.

# A Year of Improvement

***"The season was a very positive one"***

This year, our Grade 8 teams won almost all their games and tied for first place with Bonner in the Mid -Island Championships. The Grade 9 teams started off poorly, although with a bit of professional help from coaches Mr. Saxby and Mr. Felix, they were able to pull up their socks and become a better team. The Grade 9's placed third in the Mid-Island Championships with a disappointing performance, but a lot of effort was shown. There were four captains for the two teams. The Grade 8 A team captain was Davin Garg, and the Grade 8 B team captain was David Williams. Both of these teams were coached by Mr. Hall and Mr. Boccoli. The Grade 9 A team captain was Brendan Tweedie, and Chris McLeod headed the Grade 9 B team. The coaches thought the season was a very positive one for all the 8's and 9's.

# **J**unior girls a season of success

*"Our Midgets have also had a good season, and show great potential for future Shawnigan teams."*

This season the Junior Field Hockey programme has been very successful. We started with a great turn-out of enthusiastic players and ended with two strong teams bound together by hard work and friendship. Our grade 10 team played some excellent exhibition games as well as two strong tournaments. The ISA's, held at Lansdowne, brought tough competition but we held our own, placing a respectable 5th out of 8 teams. At the Mid Island's at Kelsey, we played a number of strong games and are now awaiting our final match against Prevost for a qualifying spot in the Island Tournament. Our Midgets have also had a good season, and show great potential for future Shawnigan teams. As our memorable season comes to a close, we'd like to thank our coaches, Mrs. Grass and Mr. Fraser for their time and encouragement. The grade 10's wish all the future junior teams good luck and hope they have as much fun as we did.

**"Everyone contributed to the team"**

The Junior A girls Volleyball team had a very successful year. The team played a number of league games with teams from around the area and did well against all of them. In our first tournament, the ISA's in Victoria, we placed fourth overall. All of the team members played exceptionally well and we will never forget our huge victory against Crofton House. Our next big tournament, was the Mid- Islands at Brentwood which determined who would go on to the Island Championships. Again the Junior Girls played well and everyone put in a huge effort. We placed fourth overall and unfortunately were unable to go on. The Junior girls had a great season and it was full of great volleyball and team spirit. Everyone contributed to the team and everyone always played their best. Mr. Wickett, our coach, made it fun for all of us and together we had many laughs.

# Having Fun with Volleyball

The Junior B Volleyball girls had a short but excellent season. There were twenty-two of us on the team. Unfortunately there were no other junior B girls leagues in the area, so this meant there were not many games for us. On Saturdays during our practices, Miss Woollven, our coach, managed to round up all the other Junior Volleyball girls and we would play fun rallies in the gym. We ended our season with the I.S.A's held at Frances Kelsey School. We won our first two games but lost our third, which brought us down to third place. However, the season was very successful and enjoyable and we thank Miss Woollven for putting up with all of us.

## irst XV A great start to the year!

*"The style of play Shawnigan used was overpowering"*

The first term of rugby was once again a great success. The style of play Shawnigan used was overpowering to almost any team we encountered. The highlights of the season were the win against the UVic Jutes and the tremendous experience that was gained by playing an outstanding New Zealand high school team. There was a sad moment for the squad though, as Danilo Tyndall has played his last game for the school. His talent will be greatly missed in the third term. The team's strength was greatly increased by three key players: Josh Jackson, Tearakau Houston and our captain Pat Graham. Their immense knowledge of the game and high skill level earned them a spot on the Canada U17 team that travelled to Germany in the early fall. Special thanks go to the coaches of the First XV, Mr. Samuel and Mr. Patel. We all look forward to the spring term of rugby when we will return fresh and ready to go, prepared to capture that Provincial Championship, at last!

# **S**enior Rugby Achieving Goals

**"With this in mind, we set some reasonable goals for the season, but at the end of the year we found that we easily surpassed them."**

This year's 3rd XV was made up of some very fine athletes. From both Grades 11 and 12. Most of the boys had played the game before, however there were a few newcomers who hadn't touched a rugby ball until they came to Shawnigan. With this in mind, we set some reasonable goals for the season, but at the end of the year we found that we easily surpassed them. Our rookies could be mistaken for 1st XV players (a few members of the thirds actually had the chance to play on the firsts), and every experienced player brought their game up another level. Our success as a team can be attributed to Mr. Williams, who through dedication and knowledge not only improved us as rugby players, but as people as well. The 3rd XV of 1997/1998 would like to wish the best of luck to all future 3rd XV players, and thank everyone who made our unforgettable season possible. Thank you.

## Great teams!

***"The team was successful because we had heart"***

The 1997 Colt Rugby programme was great. Many new boys were introduced to the game, all of whom picked up the skills very quickly. Each new individual established himself on one of the three teams. We were joined by a new coach, Mr. Wyatt, as well as Mr. Noble and Mr. Robertson. The season began slowly, but together we learned more and more about the game. The C team played very few games, but gained experience, enthusiasm and strength. The B team had an outstanding season —they won all their games until the Mid-Islands. Led by captain Eric Murdoch, they proved their skills, and showed their pride in the school. The A team had the challenge of bringing together players of different abilities and knowledge to form a whole. The team was joined by Tony Orlandi, Ryan Walchuck, Josh Ray and Robert Heaton, key players who were needed to fill some important gaps. The team met the challenge and proved their own strength by beating some very good teams. Highlights of the season were victories over teams that were stronger in skill, but weaker in determination. The team was successful because we had heart. The team will really miss James McFarlane, who played 8th man. We would like to thank all our coaches for their enthusiasm and knowledge. Throughout the season, we learned a lot and had great fun.

## I sland Champions in the Game of the Season

*"... Sportsmanship Trophy  
for the second year in a row."*

This year's Senior Girls' Volleyball team had a somewhat successful season. In our first week we entered the Malaspina tournament and finished with a reasonable placing. We travelled to Crofton House for the annual ISA tournament (as it turns out Lorna still can't find the Lions Gate Bridge!) and ended up defeating York House in the finals. Other tournaments included third-round placings at UBC, Island Champions and Provincials we'd rather not talk about. The season ended with some great memories. We barely won the Islands and didn't fare too well at the B.C.'s. We won the Sportsmanship Trophy for the second year in a row (maybe that was our ultimate goal?) and beat Camosun College in one of our better games. We will remember Romy and Michelle, Dana's House and sneaking out to 7-11 for "spitz and slurpees". We shall never forget Dana's acrobatics, Natalie's urgings of "Take it away, women!" and Val always being on the ball, "Whaa?!". Katherine, quiet and solemn, was always the first to offer her enthusiasm and a big thanks to Ryan for all his support! Against St. Andrews we proved what we were capable of doing. It just happened a little too soon. I'm not disappointed and I hope the team is not either. You win some you lose some. So we choked and came ninth, but it was all good fun. Thanks to all you gals for making my last year of SLS Volleyball really worthwhile. You taught me a lot.

Number one on the

This year, the Senior Girls' Field Hockey team had an extremely successful season. Our coaches were Mrs. Bridge and Dave Robinson. Suzanne Finlayson and Noelle Daigle were named co-captains for the season. We finished our league play as number one on the North Island. We also played in several tournaments including the ISA's and the Bridgeman Cup. One highlight of the season was a defeat of Glenlyon-Norfolk in that tournament. Our biggest tournament, the Islands, was played in Duncan. We advanced to the semi-final game and ended up playing Glenlyon-Norfolk for the second time. Unfortunately, we lost the game in an incredibly tight shoot-out. The loss cost us our chance to play in the Provincials, but it was, by far, the closest any Shawnigan Field Hockey team has come to playing in that tournament. The team grew incredibly close by the end of the season, and we had our wrap-up party at Mrs. Bridge's house. We would like to thank her and Dave Robinson for being such supportive coaches. Hopefully, the Field Hockey programme will continue to grow and the senior First Eleven will eventually reach the Provincial tournament.

# **L**earning to serve A satisfying term

*"We learned a great deal about teamwork and efficiency"*

This year Search and Rescue programme has continued to improve. We were all involved in the mandatory overnight "survival". This proved to be really beneficial in bringing the team together and learning to co-operate in a somewhat uncomfortable environment. This co-operation carried over into both of the mock searches we did. We learned a great deal about teamwork and efficiency in pressured situations in our searches, knowledge that can be of service anywhere in life. Every member of the team is a certified first-aider and hand-held radio operator. Other technical skills we learned included rappelling, snowshoeing and snowcaving at Manning Park. The S.A.R. team is very grateful for Miss Woollven's and Mr. Kennedy's help in various areas. The team has also benefited from Mr. Sigfstead's expertise, which has been a major factor in the programme's success. I have thoroughly enjoyed leading the team this year. Good luck next year!

# Fun Sailing

## A great cold-weather experience

This sailing season had many new and interesting experiences. The year began with warm weather and no wind. This lead to many sun-tanning sessions out on the lake, joined with many capsize drills in the refreshingly cold water. The weather then became cold, but with a very strong wind. This proved to be a very chilly and wet adventure for many of us. For most sailors though, this was the most enjoyable time, and we all showed up in warm clothes to best the weather, except for Austin Kenzie, who sailed almost everyday wearing a tee-shirt and shorts! The highlight of the year was the sailing trip on the 45 foot boat, *Mariah*. The beginning of the trip started off well, until we decided to hoist a "Jolly Roger", the pirate's flag. Obviously some supernatural disagreement was afoot as we tore our mainsail in half, and our helm control broke. After all the commotion, we took the flag down and the rest of the trip proceeded normally. We had a great season and we will be left with some interesting memories forever.

# Canada's Game

## Not for the faint-of-heart

*"... the whole team aspires to the play of Menard and Cockburn ..."*

This year the Senior Hockey team was able to put up some impressive victories, and come away with a season record of 6 wins, 3 losses, and 1 tie. Many of our players were new to the game (#102!) but played hard every time. We relied heavily on the play-making skills of James Moore, the goal scoring of Thom Dutchak, and the combination of skill and toughness of Adam Watchorn. With some brilliant goaltending from Geoff Goodson and Will Warnock, we were able to come out of some tough games with a victory despite having been outshot. Solid defence from the likes of Tony Vane, Mitch McDowell, Carl Holmqvist, and occasionally Chris Lane, gave us great confidence in our own end. With the nagging injuries of Joseph Harris, and the bad back of Austin Enright, our team was quite often caught short of players, but with all the hard work we put in, we managed to come out on top more often than not. Our team played a very physical, fast-flowing type of game, thanks to the excellent coaching of Mr. Fraser and Mr. Ganley (Moose). I know the whole team aspires to the play of Menard and Cockburn, and I know everyone would like to wish Omar Mawjee luck in his NHL career.

—Thom Dutchak

### **Junior Cross-Country**

We had a great time in Cross-Country this term and we would like to thank Mr. Wyatt for making it so enjoyable. As well as our practices and runs at school we went to two other meets and did really well. We had a first place finish for the Grade 10's and a second place result for the 8's and 9's. The top runner in these events was Charles Crook, our Australian exchange student. All members of the group worked hard and improved their skills and fitness over the term.

*"Effort is only effort after it has begun to hurt"*

This year, the Varsity Men's Crew was a small group of dedicated seniors. With the rigorous coaching style of Ms. Stapff, we trained through the rain, sleet and snow to prepare ourselves for the regatta season in the third term. With varying levels of commitment and skill we were unable to make a Varsity Eight. However, we formed a close relationship within and between our crews and enjoyed ourselves. We also created good relationships with other divisions of the programme, especially the Colts Eight and the Varsity Women. Our coaching has come from several mentors, including Ms. Stapff, Mr. Kennedy, Mrs. Platt and Mr. Héder, and we have improved greatly. We would like to thank Ms. Stapff for her work and patience in organizing our endeavours and for making the San Diego Rowing Tour '98 and the National Championships in St. Catherines a reality.

## **A**s good as it gets First squash tour ever

*"We have had one of the most successful years in squash since I came to the school."*

We have had one of the most successful years in squash since I came to the school. In February, we went to play at the Pacific Northwest Tournament where we succeeded in winning most of our matches. A few of us were fortunate enough to play at a tournament in Nanaimo where we all came out as winners. At the I.S.A. tournament in Brentwood we had an easy victory against the other schools. I am delighted to say that for the first time in my four years at squash, we had a squash tour. The tour consisted of us going to Boston and Bermuda, where we played in exhibition matches and tournaments. We would like to thank Mrs. Grass, for organizing the tour, and also to Mr. Levinson who arranged the accommodation for us in Bermuda. We would like to thank our coaches, Mr. Black, Mr. Candeleria, Mr. Grass and Mrs. Grass. We are lucky to have such kind and considerate coaches who have transported us back and forth from tournaments. The growth and enthusiasm of the squash team has led me to believe that the future holds great promise for the younger athletes on the team. I wish the squash team continued success in the near future.

## A Dream Team in the making

*"A good mix of talented basketball players."*

This year the Junior A team was made up of a good mix of talented basketball players. The team was selected early in December to give us a good start. We were challenged when we played in the annual Stag Classic, because it was the first time we had played together, making effective teamwork difficult. Even so, we were able to tie for second place. With the aid of Mr. Noble and the hard work of the team we improved greatly, and were able to perfect many plays and strategies. Everybody improved, notably Jimmy Jung and Eduardo Lastra. On behalf of the team I'd like to thank Eduardo for always putting us in foul trouble, Alex Chen for being our comedian/manager, and finally Mr. Noble for his hard work.

## Learning the basics

The other teams that made up the Junior Basketball Programme were the Junior B team and the Grade 8 and 9 team. The Junior B team was a team put together both because there were people that didn't qualify for the other two teams and because Danilo Tyndall was free to coach it. We played a grand total of four games, three of which were unsuccessful. Most of our practices involved "no-rules scrimmages" and attempts to teach us plays. We had fun and would like to thank Danilo and Mr. Patel for their efforts. The Grade 8 and 9 team played six games and two tournaments. One was played at Brentwood and the other at Bonner. The team was not hugely successful but they tried very hard and enjoyed themselves. The team is very thankful to Mr. Barrett for all his time and coaching efforts.

## Unforgetable memories

*"...a promising season and a successful tournament..."*

This year the Junior A girls had an extremely successful season. Unfortunately due to some conflicts with the Christmas Exams, we were unable to attend the I.S.A's in Vancouver. However we did very well in the Mid-Island Tournament, placing third after a very close game against Gulf Islands. There has been tons of improvement this season especially with the Grade Nine's, who have worked so hard throughout. The Junior B team also had a promising season and a successful Tournament at Shawnigan. It was hard for them to play five teams in one day, but under the coaching of Mrs. Bridge, the girls did an excellent job and came second in the Mid-Island. We would like to thank Mr. Williams for being such a great coach, and Mrs. Bridge for all the advice and help she gave us throughout the season. Congratulations to Jenn Read and Courtenay Althouse on winning the All-Star award at the Mid-Islands.

# **G**reat Basketball A hard-working team

*"Provincials here we come!"*

The basketball team was very successful despite a late start to the season. We played reasonably well in the ISA's, and also displayed some great talent at the AAA Stelly's Tournament. As we continued to train for the Islands, we came across some rough, some familiar and some repetitive competition. Defeating such teams as Gulf Islands, Chemainus, Kelsey, Chemainus, Qualicum, Chemainus... and also Chemainus, put us in good physical and mental condition to take on the competition at the Islands. Some good memories have been defeating Brentwood in a "Barn Burner" in front of their home crowd; dominating at the Islands and defeating our island rival Pacific Christian; travelling to Ucluelet, staying at Middle Beach and posing for Nagano on Long Beach. Thankyou Mr. Sarsfield for all the car rides and great practices—you're such a softie! Provincials here we come!

## A Stag Classic to remember Great season, great coaching

There were high expectations for the Senior Boys' Basketball team. We finally had the size we needed to compete with the other AA schools on the Island. There was only one problem, and that was that two of our big men were out with injuries right from the start. We had a slow start at some difficult tournaments in Naniamo, but they were all great learning experiences. I think the most memorable loss was against Woodlands at the Woodlands tournament. (I don't think that I should mention the score in order to save any further embarrassments!) The reason this is so memorable is because we defeated them at the Stag Classic after two overtimes. Despite this great showing, we had the Ski Week break, then, two days after we got back, we had the Mid-Island Tournament. Needless to say, we did not fare well. I would like to thank Mr. Austin for the great trip to Summerland. To the Grade 11's, I just want to remind you that even though you are losing some good players this year, next year you have the Juniors coming up. And I speak for all the grade 12's when I say there's no coach like Mr. Austin.

## **T**he Fittest of the Fit Rugby Training

*"Alternating between intervals and long runs most people found that their fitness increased rapidly."*

This year, during the second term many of the senior students took part in a sport which consisted of three different components. Running, Aerobics and Weights were all part of the training that in many cases was preparation for the third-term Rugby season. Alternating between intervals and long runs most people found that their fitness increased rapidly. Mr. Felix introduced Ply-metrics to the group, which is a type of training that uses your own body weight to challenge yourself. Towards the end of the term, the focus, however became clear, and Rugby was introduced. The majority of the senior Rugby tourists were in the Running and Weights group, so they got an early start on their skills. The aerobics people on the other hand steadily focused on their aerobic work-outs mixed with a bit of Running and Weight training. The coaches, Mr. Felix, Mr. Samuel, Mr. Robertson and Mr. Patel all proved to be incredibly dedicated in making sure that the students all became among the most physically enhanced in the school. Thank you to them for their commitment and time.

We, the boys of Copeman's have gone through many transitions. For once in the entire School's history, we have actually succeeded in placing first in something other than sports, by winning Academics. The reasons why are the great staff working in the House and Zybutz's outstanding average. Another change is the atmosphere inside the House, now girls will actually come within a 50 metre radius of the House without feeling uncomfortable. Copeman's House highlights this year have been Tim's raider mural, Abe's tear jerking rendition of "I'm a little teapot," House outings to Victoria to see the Salsa play, the USS Enterprise snow sculpture, the Christmas tree of the century—spanning over three stories, and watching Saul try and compensate for the loss of his Ritz. Lots of thanks to all the guys in the House who make it a fun place to live. Most of all, thanks to Mr. and Mrs. Hall and Mr. Sigfstead — we sure have had to use your wisdom and guidance through the year. Best of Luck.

*Our second year at Renfrew House has gone by with flying colours. We started by welcoming our crazy Grade 8's and our "Einstein" Grade 9's and we could never forget the most exciting news of all Mommy's expected baby! We've had so many good times with our House outings and parties, and how could we forget the time when the power went out ("anyone for cards ...?"), also our late nights with Brandon and Bailey! It has been a joy to be part of this House and we have all shared many memories, good and bad. Everybody has always been willing to lend a helping hand, and there has never been a day that has gone by without a hug from one of our special girls. All of us at Renfrew consider ourselves a family, a family of eighteen girls who have come together to share the experiences of "Home away from Home". Thankyou to everyone who has helped in this House, especially Lisa for her sisterly advice. This has been a year that neither of us will ever forget... Thanks so much girls! Kaye's House has had a wonderful and exciting year. We had a good assortment of new students from quiet Grade Eight's to rowdy Grade Twelve's that all fitted in and became wonderful additions to the House. From the very beginning of the year, when Erica ran through the gates in the 'Round the Lake Relay', Kaye's has topped the Inter-House charts. The House is full of talented and enthusiastic girls who stood behind the House all the way. This year's Grade Twelve's were not quite as fond of Wilbur as last year's Grads but we did enjoy our occasional excursions with Ripley's. We will also remember our raid at the beginning of the year, which didn't work too well because Zein's screams echoed through the House! As Grade Twelve's, we will always remember Kaye's House and take a piece of it with us wherever we go. A huge thank you to Mrs. D, our mother away from home, who held us together through hard, tough times as well as the fun and exciting times. To the rest of the House, remember your Grade Twelve's because we'll miss you and someday we'll be back to visit you.

This year, Lake's House was happy to welcome our new House Director, Mr. Wyatt "Earp", and after adjusting to his strict regime, things settled in nicely. Without anyone left to keep Jeremy Overton from expressing his personality, we soon learned to expect the unexpected. James Moore was quick to take his "little person" frustrations out on any and all juniors who got in his way, and Adil established the first-ever Quik-E Mart on campus. Austin "Trailor Trash" Parten proved what a tough guy he was by taking icy-cold showers early in the morning, and Eduardo showed his sloth-like characteristics by refusing to get out of bed before 1 pm. Lake's House can still lay claim to having "The Toughest Kid In Canada" in the likes of Mitch McDowell, and the new up-and-comer, Robert Down. Throughout the year we had loads of fun with our sister House, School House, one of the highlights being the Christmas Dinner during which we poked fun at one another. Thanks Britta and Ricci! *This year Lonsdale's has continued to build upon the integrity it established over the past few years. We have maintained our athletics standing in the Inter-house competitions with the highlight being the winning of Senior "A" Rugby. Recently, and it is with great pleasure and pride that I announce this, Lonsdale's did not come last in an Academic Assessment! Aside from the competitive aspects of House life, the atmosphere has vastly improved this year and the students have stuck together very well in the difficult times that can arise, especially in the second term. Mr. Felix has, once again, lead the House outstandingly well and the boys are very proud to work with him. We would also like to thank Mrs. Felix for her invaluable contribution to the House. This year we welcomed Mr. Ganley, who has found his place in Lonsdale's and has fitted in better than I have seen anyone do. He is a very easy person to work with. "I'm not the two-headed dragon you think I am!"

Even though this expression and others of the sort are heard several times in an average House meeting, Groves' has maintained a positive attitude towards the general T-O-N-E of the house. It is the mission of Ms. Newns and the Grade 12's to make people understand that quiet hours are really meant to be quiet, that makes our House such an exciting place to live each and every day. There will never be a dull moment as long the "phantom flusher" never leaves the second floor, the Grade 9's carry on running wildly up and down the hallways and food continues to mysteriously go missing from the kitchen. The Grade 11 floor seems to be awake day and night, the hallway continuously filled with the dominant voices of a few individuals, and the never-ending soap opera tales of the dramatic events of certain people's lives. Through all of this the Grade 12's attempt to keep things in order while remaining partially sane and yet still having fun doing it (yes, we do love our power!). The late-night movies, chats on the deck and Woolie's room, pranks on the house and learning to live with a wide range of personalities have made this year one of the best. Without the humour and understanding of Ms. Newns and Miss Woollven, Groves' could not be the place that it is. Thanks for all the memories and an excellent year.

Ripley's House has gone through many phases this year, especially with 60 students living under one roof. We all had to pull together and have made it the best House on campus. With our pace-setting athletes and renowned scholars we brought Inter-house competitions to a new level and shocked our rivals. The Grade 12's had to learn how to be patient with new kids and teach them the ways and morals so often associated with Ripley's and the School. Many of the new students had to learn very quickly with the help of the Grade 12's and the old boys from the years before. Ripley's House became a great big family almost instantly and all of the students were friendly and enthusiastic. Last year, Ripley's House won the Lonsdale's Cup and we hope that we can continue in last year's footsteps. In all, it has been a great year and many thanks go to Mr. and Mrs. Samuel, Mr. Cox, Mr. Williams, Mr. Heder and all the Grade 12's. I speak on the Grade 12's behalf when I say that we are proud of our achievement and thank the Ripley's men for a year to remember. Good luck next year to everyone in the House. Hey Zeus!

This year, School House has undergone some major changes, the most significant change being the arrival of a new House Director and family, the Stapffs. The house also received a major face-lift over the summer, which proved to be most successful. After a rough start to the year, we pulled through with the support of Mrs. Stapff and finished consistently runner up in most Inter-House events. School House was joined by four new Grade 8's this year, each of whom proved to be the most friendly people in the House. The Grade 9's were attached at the hip once again, and had a difficult time saying goodbye to Courtney Sismey. Our small group of grade 10's, "The Seniors of the Juniors", were a great help to the seniors in the house whenever they were needed. The grade 11's are a powerful group with lots of potential, who were key in maintaining a smooth household. We, the Grade 12's, are a diverse group with lots of different interests. We meshed well together and hope that the rest of the House felt the same way! Throughout the year, we stuck together, creating memories that will last a lifetime. We spent our days reading "Chicken Soup for the Soul", complaining about Big Blue, eating breakfasts at the Stapffs and having fun with our brother house, Lake's. We also spent a lot of time with Renfrew House, watching the Much Music Countdown, marvelling at the hedgehogs, and playing with Alec. The year has been full of ups and downs, yet our strength has shown through our hearts, not our numbers. I'm sure that everyone will look back at the year with fond memories. Good luck in the future. I love you tons!

—Suzanne Finlayson, Head of House

Chapel this year has been a success. The Christmas services went very well, thanks to all the decorating crew, the choir and the servers. Our Remembrance day and Founder's day services impressed many alumni and visitors. We have raised a good sum of money for various charities and your generous food donations for Thanksgiving really helped the food bank. There have been great performances from assorted bands, groups and the choir. Many students have had the courage to get up in front of all their friends and speak. This takes a lot of courage so, thank-you. There is a dedicated crew that have helped with our "renovations" and organising. And we must not forget the most-heard (but not necessarily the most-seen) Mr. Shields. Thank-yous also go to Ms. McKenzie for the choir, Mr. Guellette for the bands and Mr. Anderson for maintaining the organ.

*Beautiful Duet* Jeremy Overton and Dana Gibson sing for the Chapel.

*Choir soloists* Monica Harvey and Rupinder Parhar sing their best during the Christmas Chapel Service.

*The whole group Confirmation '98 gathers in front of Camp Columbia.*

**T**his year the choir has grown to twenty-five members, and has had many exciting performances. A large part of the first term was spent learning music for the Advent Carol Service, which is a favourite event among the staff, students and community. This year's service was most successful. Last year, the choir placed first in the Cowichan valley music festival and received an "Excellent" overall rating at the West Coast Concert and Choir Festival. We are looking forward to returning to these festivals this year and have great hopes of success. In the spring term, plans are in place for a trip to California to participate in an International Choral Festival.

**Very Talented!** Ms. McKenzie can play the piano and sing at the same time!

**When do I sing?** Dan Allard asks Ms. McKenzie if he is singing at the right time.

**Memorized!** Heather Rycraft can now give her full attention to the conductor.

**Full strength** The choir warms up with enthusiasm.

**Real men** Dan Allard, Dave Randall and Peter Jellema are a few of the choir's best.

The choir has also received an invitation from the Dean of Christ Church Cathedral in Victoria, to join their choir for a service of Evensong. We are very honoured to have received this invitation, and are looking forward to singing there as we love the beautiful setting and amazing acoustics of the Cathedral. The choir has accepted the challenge of learning some very difficult (but rewarding!) repertoire and lots of Canadian compositions. Probably their favourite is the Log Driver's Waltz, very appropriate to our geographic location! We are ever expanding our musical horizons and are always happy to have new people join us.

—M. McKenzie

**Sweet Sound** Dana Gibson lets the audience hear her lovely voice.

**Altos Forever!** Erin Allison, Christa Dakin and Heather Schaan try to drown out the sopranos.

**T**his is by far the strongest year the Music programme has ever had. We offer instrumental music in the timetable for all levels. All classes, with the exception of Grade 8, have over 20 students in them, meaning that each group has an excellent spread of instruments. All the Junior classes participated in the Fall Fine Arts Night in November, and will have participated in at least one band festival by the end of the year. At this point, the Grade 10 band, as part of the Senior Concert Band has been invited to play at MusicFest Canada in Vancouver in May. Add to all this, the number of students taking private music lessons throughout the school, and you have over a third of the School's population involved in the Music programme in some capacity. It is truly my hope that we will maintain, and even increase, this number in the years to come.

—D. Gueulette

*I am not going to look! Arthur concentrates on his piano and ignores the camera beside him.*

*Come on, shake with me! Mr. Gueulette and Jack make the best combination in the band.*

*Wow, listen to that soloing!  
Don't you just fall in love with  
Saxaphone now!*

*Hey look, that's the three  
soloists! Peter looks so serious  
when he has a trumpet in his  
hand. Can you believe that  
Martin just started to play  
Saxaphone this year? Although  
it's only the blue scale, Andrew  
still plays hard.*

**T**he Senior Class, which functions as the Senior Jazz Band and part of the Senior Concert Band, is undoubtedly the finest group of musicians the school has ever assembled. They played in the Fall Fine Art Night and will be competing in several jazz festivals, including the Surrey Jazz Festival and the West Coast Jazz Festival. They hope to secure an invitation to MusicFest Canada to go along with the one they have already received as part of the Concert Band. The after-school jazz combo programme is booming this year, due in part to the success that last year's group enjoyed in Ottawa. We now have two Senior Combos, one of which has already been invited to attend MusicFest this year, as well as a very promising Junior Combo. All the three groups will be competing in the West Coast Jazz Festival in Nanaimo in mid-April.

—D. Gueulette

**J**unior and Senior sculpture students have had a very enjoyable and successful time. A lot of new talent joined our group this year. Jorge Correa has produced a very accomplished sculpture of an eagle, Matt Luckhurst completed his largest carving to date and Rory Burson's iguana "enjoyed" the experiment with various patinas and iron oxides. It has been good to see students attempt some realistic studies. This year Kurtis Bell's "pirate" in particular showed great promise! Throughout the year, we have produced sculptures from soapstone, clay, alabaster, plaster, and resin. Most of our sculptures have been abstract, attempting to achieve a sense of balance.

—Ted Vlad

*Friendships! Jose and Jorge bond at sculpture.*

*Wow! Arturo should be in modeling not sculpture.*

*Watch here! Ms. Newns helps Kurtis fix his sculpture.*

*Touching up!* Rory does a little last-minute work.

*Looks Good!* Marcus is taking his time with details.

*All these pieces!* Chris decides which bit goes where.

**M**odel builders had a fun, productive and interesting time in the Fine Arts building. Students worked on a range of models ranging from snap-together beginner cars to detailed battleships and motorcycles. The cast of characters in the activity made for many humorous episodes, both here at school and on our frequent trips to the B.C. Shaver shop in Victoria. It was a pleasure to supervise the great model building expertise exhibited by the likes of Yuichi Levinson and the under-rated talent of Ryan Sutcliffe. In the years to come I am positive that the construction mogul "Levinson and Sutcliffe, Architectural Enterprises" will be a force to be reckoned with in the business. I was also very pleased to have under my wing all of the other talented model-builders, and I wish them all future success in their individual and collective endeavours. "If you build it they will come."

—P. Ganley

**T**his year in the wonderful world of Textiles, the group has been working extremely hard and with such a talented group they are bound to be successful. They have made extraordinary pieces including rugs, hats, scarfs, tea towels and slippers. The Textiles activity draws the attention of many people, mainly boys and mostly juniors. Walking in the door you are amazed by the brilliant colours and wonderful patterns on the looms. The experience is well worth it and "it's not as hard as it looks" they say. It takes only about a week and everybody is already learning the "ropes!"

**Learning the strings** Joc knows all the strings by now.

**Having fun** Scotty weaves his way through life!

**Picking through the threads** Lindsay works on a scarf!

**Looking cool!** Ben pulls the ropes to weave his new warm, wool tuque.

**Hot!** Watch your fingers Nicole Gibbs or they could become very metallic looking!

**Fitting the pieces to the puzzle**  
Stained glass takes a lot of patience.

**Cut and snip and...** Ted Huang knows there's a lot of things to do in a day of Stained-glass!

**P**icture perfect is the phrase that springs to mind when you walk into the small corner of the Art Room which has been transformed into a stained-glass studio. So far this year the group has been working extremely well, making incredible works of art. Everybody started with basic skills and quickly progressed at their own pace. All sorts of neat things, including lamps, boxes, window ornaments, night lights and many other extraordinary things have already been made. Stained-glass has turned out to be as popular as ever this year!

**T**here is far more to library service than most people realise. Did you know that only some of the things we do are shelving, tidying, repairing, cataloguing, laminating, replacing newspaper, keeping track of books, chasing overdue borrower, using computers, organizing books..... There are lots more! Our mission is to make sure that students and staff have an efficient, orderly and organized resource. This year we have a large and exceptionally good group and we are making computer cataloguing our main focus. Next time you visit the library think about our hidden work!

—Saul Hilchey

**D**on't worry I'm sure Ben will solve the problem.

**The librarians** Saul, Ronald, Andy and Amy are Mrs. Dalrymple's valuable helpers.

**J**ust checking Andy looks up information on the computer.

*Where do I start? Amy has a big job trying to keep all the magazines in order.*

*We're not speaking Brendan and Helena do their own thing in computer graphics.*

**C**omputer Graphics is a small Fine Art on the bottom floor of the hobbies building. Everything seems to have changed, yet nothing really changed. We have a new group this year consisting of Brendan Flanagan, Ryan Walchuck, Helena Chow, and myself. Our previous instructor, Mr. Cox, is no longer with us, but we now have the equally-talented Ms. Newns. Despite the changes, we still manipulate photos, create illustrations, and build 3D graphics at a level we still think can be compared to those of Warhol, Escher, and Michelangelo. Although we still don't have the newest equipment, we still create some pretty neat stuff. Our creations can be seen in many forms around the school — in the Yearbook, on posters for various events, even on the School's website. We believe that Computer Graphics is the emerging new Art form in today's increasingly technological society and we are glad to be a part of it.

—Ben Lee

*How to use the barre! Regine, Brian, and Heather get a lesson from their teacher*

Dance this term was fantastic! Our teachers Monica and Kim were supportive and helpful. They taught us perseverance and discipline, yet most of all they showed us how to express our creative talents. We all enjoyed each other's company and it was nice to dance into a relaxing atmosphere after a hard day of hitting the books. We have attempted a variety of dance styles including Ballet, Jazz, and Tap. We are looking forward to performing in the Fine Arts concert at the end of the year. Highlights of the year were our excursions to Duncan and watching a Ballet.

—Julie Strilesky

**Complete unison** Julie, Adrienne and Syd show off their tricky moves.

**The feet are very important** Mimi learns to master first position.

**Team work!** Mme. Towner gives Cen and Chelsea a lesson to remember.

*Be careful not to prick yourself! Mitch concentrates hard while working on his latest project.*

This year in Fashion Design, under the watchful eye of Mme. Towner, we have seen the beginnings of the unabashed talent that will in years to come, dominate the runways of New York, Tokyo and Milan. There have been countless successful projects, meticulously planned and executed that not only impress the eye of the beholder, but are also practical: Alex and Ian with their fleece mittens, Gio with his too small hats and Mitch and his suspicious cheetah fabric. Chelsea has a different project every week (and a characteristic iron mark on her very expensive satin). Meanwhile Cen has her retro-gear and various other achievements and not-so-insignificant blunders. It's been a great year; thank you so much Mme. Towner for your guidance.

—Cen Campbell

**Good with his hands** Josh Ray is being very careful with his pot.

**Watch your fingers!** Stephen Kennedy is being very careful to plane the wood not his hand.

**We**, the proud members of wood-work, take great joy in informing you that we are the coolest and most talented members of the Fine Art community. With the aid of Mr. Smith and the new 44" sander, table saw, bandsaw and shaper, we all produced masterpieces. Another nice new addition is the vacuum that lets us breath more easily. Come, see our wood.

—S. Kennedy & J. Wilke

*Yes, it's true! This has been a year of accomplishment for students. Products ranged from laminating to chairs, tables, bookcases and desks. The facility has been improved with the addition of several new pieces of equipment, but most importantly, an exhaust system that works well. Each group that passes through has brought a new level of creativity and commitment, inspired by their predecessors.*

—G. Smith

**Working with Wilke** Justin is a willing woodworker.

**Luke, I am your father** Is Mr. Smith Darth Vader or is he just a woodworker?

*Working the wheel* Kara is deep in concentration as she creates her piece.

*Deep in thought* Kristy is deciding what to do next.

Pottery this year was very eventful. Both Juniors and Seniors improved a great deal. At the beginning there were some very nice presents being glazed and wrapped for family and friends. We tested our creativity in the field of abstract art and turned out some fabulous pieces of work. We also tried our luck at handbuilding which showed up the true perfectionists. Class was always a happy place to be with a wonderful teacher like Ms. Miles. She was always so patient, guiding everyone to work their way to an excellent pot. She always had the right way to get us motivated at the start of class. Thank you for a great year!

**A**rt this year has attracted a large number of artists. The Art Room is always buzzing with activity and there is a great variety of work being done. In the beginning it was hard for everybody to express all their artistic ideas and put them on paper. However once students got the hang of things, hands were flying and legs were tapping to the beat of walkmans. This activity isn't just a Fine Art, it's a way of letting go of the world around you and looking at life in a new way. Many art-forms have been covered, from pastels and watercolours to chalk and air-brush.

*Buzzing with activity! The art room is full of hard working juniors that just go, go, go!*

*A pretty picture Janel looks so angelic with the flowers and the peaceful scenery!*

*Lovely! Abe's works bring a smile to everybody's face.*

*Joined at the ears! Music is great to have, especially when you can share it with a friend.*

*Juniors and seniors alike are attracted to Art and with such large groups this year the tables are all filled. Art works range from murals to cards and more. On the far side of the room Tim Groot has painted a large mural of the Copeman's raider that he has designed. With all his hard work we hope that he will finish in time. If you look at all of the people in Art you must think that Mr. Rolston is a great teacher. Well that is true, but the efforts of the students are also a large part of it. Patience, time and concentration is great to have in the wonderful world of Art!*

**Concentration** Seppe is totally immersed in his project.

**Concentrating!** Danielle works extremely hard to get her art work done.

**Laugh a little!** Seniors take art so... seriously.

**S**hawnigan is all about bringing together different people from various parts of the world. So many things make up the Shawnigan lifestyle; alone they're just random pieces of an entire system. Every piece, every programme, and every person is important in making it all come together. This year's Yearbook staff has aimed to illustrate these ideas about Shawnigan through the image of a puzzle. We hoped to represent every aspect and person of the school as a part of the whole. The Shawnigan puzzle is forever growing. The events of each year change the colours, texture, and richness of the puzzle, making it bigger and better all the time. The Yearbook staff has put in countless hours trying to capture every piece of memory and fit it all together into one unified puzzle. When you leave, Shawnigan will remain a piece of your life forever.

**S**hawnigan is such a busy and self-contained community that in term time we often forget that many of our students regularly spend time helping in the local community. By its very nature, their efforts are unseen on the campus and some of the work they do is anything but glamorous. This page is an attempt to recognise our Outreach students. Jobs range from working with local Guide and Scout groups at one end of the age range to helping at Acacia Manor Seniors' Residence at the other. Candy Stripers volunteer at Cowichan District Hospital and we have our first student member of the Shawnigan Lake Volunteer Fire Department. They all carry the responsibility of upholding Shawnigan's good name and they all do it extremely well. We are sure that they get a great deal of pleasure from the essential services they perform. 新年快乐

This year, David Huang and myself were chosen to organize the Chinese New Year Dinner and from past experience, we knew that it was one of the most popular events of the year. Due to the large number of people who signed up, David and I had to spend a whole week whittling the numbers down to 70 students and 8 staff members. On February 15th, all of us went to the Gladiola restaurant in Victoria. The food was excellent especially the Peking Duck which David's parents donated for every table. Besides the delicious Chinese food, we also sang Karaoke. Melvin Wong and I were the Karaoke Kings for the Cantonese category and Heather Thompson was the Karaoke Queen for the English category. There were also songs in Mandarin and Japanese. Everyone had a good time and it was surely the best Chinese New Year Dinner ever. Finally, special thanks to Mr. Leary.

Sometimes, when we think of the staff at Shawnigan we find ourselves just imagining teachers. However, this community of ours would not fare very well if it tried to rely on just teachers for all the things that need doing around here — in fact it would probably do very badly! The really important people are those that feed us, provide us with essential services like Janet's transport and travel and Anna's department store, unplug the drains, take messages from parents, look after our money, make us well when we are sick, look after our fine polyester clothing, keep the residences tidy, run the Ritz and lots, lots more! This page is an attempt to thank them all and remind them that we do appreciate what they do. We know that we cannot mention them all by name — or even print a picture of everyone — but we hope that those not on these pages will forgive us. We really do love you all!

# Ski Week 1998

Ski Week is always a highlight of the year. It is a time when the whole school is able to be together outside the campus boundaries. This change of scene is therapeutic, in that it lifts the spirits of the staff and students alike. The week was packed with various activities ranging from the sporting events including downhill, cross-country and snowboarding, to the snow sculpture. There were dances at Windy Joe's, broomball competitions, Reach for the Top and a Grad fun fair. All of these events were successful. This week stands out in my personal Ski Week memories because there were no serious injuries and no discipline problems. Ski Week was enjoyed by all who took part in it and will be looked back upon as an incredibly special time.

This year, Shawnigan staged King Arthur's timeless crusade for right, not might. The cast of 65 took on the challenge of this medieval musical, with Christa Dakin, Jeremy Overton, Tim Bowen-Roberts, Eric Murdoch and Niall Zybutz in the lead roles. However, this year things turned out a bit differently, after Director Joe Grey was taken ill and his position had to be taken by award-winning actress and Director Ruth Nichol.

*"I love the challenge of working with the kids. I just told them the truth, that what I really need is quiet, concentration and discipline during this production."*

*—Ruth Nichol*

From here on, the challenge facing the cast of Camelot was the continuation of rehearsals in order for the show to go on.

*"It was pretty rough when we found out Mr. Grey wasn't coming back but once Miss Nichol took control, we got on our way."*

*—Tim Bowen-Roberts*

Finally on February 25th, Camelot was performed for the first time after months of hard work overcoming obstacles in order to achieve the goal. Camelot's message to "follow your dreams," came true after all.

## COVER COMPETITION

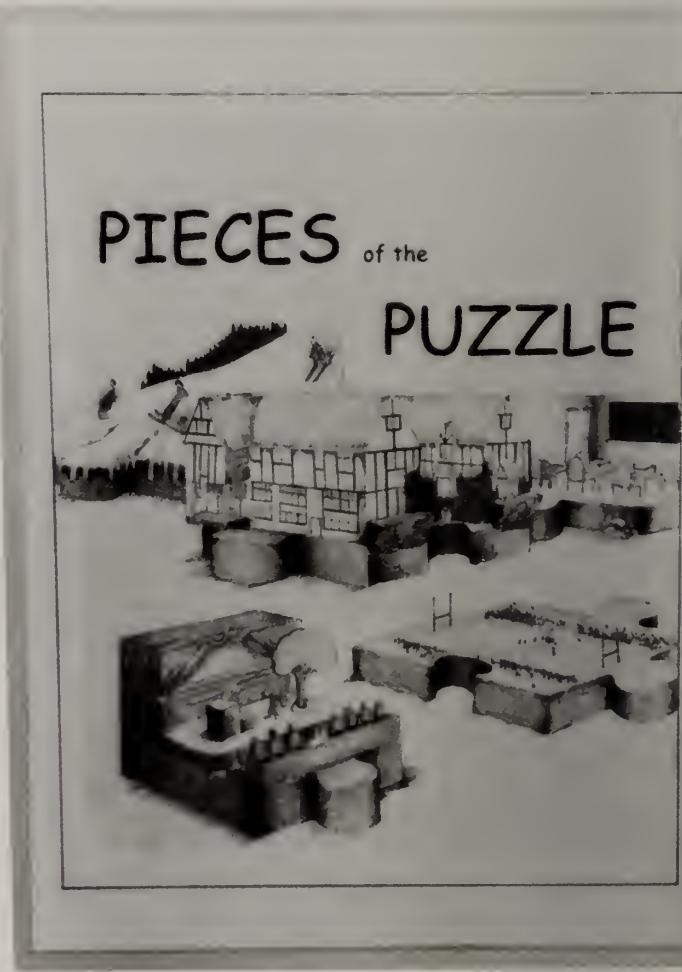

This year, the Yearbook staff decided to tap into the wealth of artistic talent found at Shawnigan and for the first time held an open competition for the best Yearbook cover design, the winner's artwork being featured on the cover. We received many excellent ideas from a variety of fields, including Art, Computer Graphics, and Photography. After much consideration, the judging panel of Mr. Rolston, Ms. Newns, and Yearbook Editor Fiona Anderson were able to narrow it down to three finalists. The winner was the design by Helena Chou, who also won dinner for two in Mill Bay. Runners-up were Peter Legun and Ben Lee who each received a pizza as a consolation prize. Honorable mentions went to Brendan Flanagan and Britt French.

## ***The Best and Worst of Times***

Somewhere, there is a place,  
 Found on an island, wooded and lusty green  
 Where the air is sweet with the jangle of laughter of young people  
 Building their wings for flight upon those roots they've grown into the depth of the soils There.  
 They prepare for flight to the great, adventurous world beyond.  
 In its heart, lies a pond  
 Where gold fish peacefully dwell  
 Where youths from around the world  
 Share the best of times.  
 Here they compete with one another  
 To set foot into their future.  
 Who, from their families parting, sadness do recall  
 They share with peers, the worst of time as well.  
 Over the time, strong friendships form.  
 Common experiences of light and heavy hearts make for everlasting.  
 Mingled smiles and tears.  
 The good out numbering the bad  
 Memories take forever shape in youngsters' minds of those best and worst of times.

### *The Gift of a Shawnigan Friend*

I come to this school, feeling alone.  
I can't understand why I'm all on my own.  
I see new people, but what do they see?  
Are they looking down with frowns upon me?  
They reach out their hands to show me the way  
And they show me good tricks for chapel that day.  
They pick up a hymnal and stand it upright,  
So this poor soul sits down,  
and then jumps out of sight.  
We start to laugh but then feel something wrong  
Mr. Bruce-Lockhart's staring but has it been long?  
He gives us a nod that says, "Yes it is you!"  
So we start to panic, "Girls, what shall we do?"

Chapel is over and we duck out the back.  
Totally forgetting the stealth that we lack.  
Now they show me the dress code that seems quite slack.  
Considering the amount of clothing they lack.  
Their blazers are huge and their ties are all loose  
Not to mention the kilts that just skim their caboose.  
When a teacher appears they yell out "School Mode"  
And I don't understand their cool little code.  
So they roll down the kilt and tighten the tie  
But just 'til the teachers have gone walking by  
They teach me the rules, the ones I can bend,  
'Cause this is the gift of a Shawnigan Friend.

## Where will I be in 2008?

When I look at this topic, it makes my mind spin. Thinking of that time so far away from now, I hope I'll be fine and safe somewhere. Maybe University for a couple of years and, hopefully, a paediatrician helping kids in need. When I think of this goal, I then realize how precious my teen years will be. Then again, it will be good to be free and independent in life. I hope to be a mother and a good wife, with a nice house and children. I hope to give them the chance that my mother gave to me and that they will live up to the world's expectations. Looking at what I have written down here, I pray that I'll be able to do all this and more — if I make it to be 24!

# Academics — a team effort

What is the function of a school and what is the purpose of education? There is no quick answer and the question would surely elicit a variety of responses. Probably however, the word 'Academic(s)' would appear in most people's replies. Although not the only thing of importance, everyone would probably agree that instruction in the areas of Language, Mathematics, Science, Social Studies and the Arts is essential to the existence of a school. The task is a daunting one, if one considers what teachers are supposed to instill into their students and within what short a time-frame. In the 12 years of a child's education, there are approximately 12 000 hours of instruction time. Compare this to the 10 000 hours (at 2 hours per day) which might be spent watching television, the 35 000 hours of sleep, the 10 000 hours of holiday time and approximately 40 000 hours devoted to other pursuits, it is a miracle that the classroom teacher manages to make anything stick. Which brings us to the real aim of teaching, namely, to train students to think critically, to make judgments, to form opinions, to seek out information and to apply knowledge. They will need all of these skills, if they are to operate and be successful in our increasingly competitive and fast-changing world. Students at Shawnigan are fortunate to have an excellent learning environment. They are instructed by dedicated, caring teachers. We hope that they will take away with them not only a body of knowledge but also the academic skills which will help them to make a success of their lives.

Social Studies helps students to explore Canada's role as a member of the global community, both as a participant in the conflicts of the 20th century and as a contributor to humanitarian aid, international co-operation, human rights, and global stability. Students hopefully become familiar with the rights and responsibilities of being not only a Canadian citizen, but also a citizen of the World. We hope that Social Studies will help to develop thoughtful citizens who will understand their rights and responsibilities and prepare to exercise them within the School, their family, their community, Canada and the World. We also hope that students will develop an appreciation of democracy and what it means to be a Canadian.

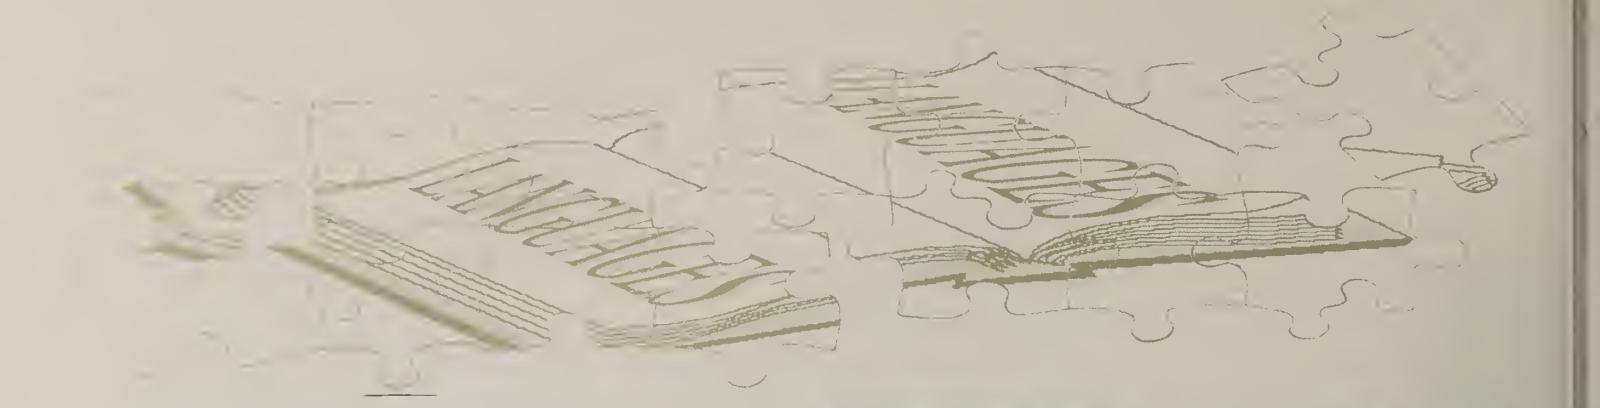

*Clever class! nearly everyone knows the answer.*

*Look at the board Instant reaction from Gabriela and Stuart.*

*Fascinating Spencer does a good job of looking interested.*

Language is fundamental to thinking, learning and communicating in all cultures. The skilled use of language is associated with many opportunities in life, including further education, work, and social interaction. The position of English as, arguably, the most useful of the world's languages, makes the study of English a necessity in any educational setting. In Canada, where one quarter of the population is made up of French speakers, we think that it is most important for young people to be given opportunities to communicate in French. In addition to bringing personal satisfaction, competence in French expands national and international career opportunities in many fields. An ability to communicate in French also encourages the development of an open-minded attitude towards Francophone and other cultural groups, and increases the students' awareness of their own cultures. Spanish is spoken by more than 350 million people around the world and is one of the five official languages of the United Nations. We feel that it is important to expose our students to Spanish, not just because of British Columbia's proximity to Spanish-speaking countries and the inherent value of learning a foreign language, but also because of the growth of our economic ties with these regions.

*Why are you spying on me?

**Drama time in Spanish** Señora Carr's Grade 10 class gets in the spirit.

**French is fun** Nadir and Ian try hard for a top effort grade in Mme. Leary's class.

**What, me?** Andy doesn't like his coffee-break to be interrupted.

**Put on the spot** It's Sarah's turn to answer.

Mathematical literacy is increasingly important in our technological society. Becoming mathematically literate involves developing the ability to explore, reason logically, and use a variety of methods to solve problems. Like literature, art and music, mathematics is a way of expressing our understanding of the world around us. It is a language — a way of communicating ideas. New technology has changed the kind of mathematical problems encountered today, as well as the methods that mathematicians use to investigate them. Graphing-capable utilities, such as computers and calculators, are powerful problem-solving tools. When they are able to use technology, students' growing curiosity can lead to rich mathematical invention. Our Science curriculum provides a foundation for the scientific literacy of citizens, for the development of a highly skilled and adaptable work force, and for the development of new technologies. We plan to help students develop the capacity to think critically, and to encourage them to examine the impact of scientific knowledge on their lives, society and the environment. We aim to develop a positive attitude toward science, to appreciate its history and to cultivate students' appreciation of the scientific endeavour and their potential to contribute to it.

**CAPP** focuses on students' personal development, and on how their current activities relate to their future plans and life after school. We hope to prepare students to deal with a world of ongoing change and continuous challenge. **Music** enables students to interact with sound, simultaneously engaging mind, body and spirit. Through creating, performing, and listening to music, students experience the ways in which music evokes images and feelings. **Physical education** aims to help all students enhance their quality of life through active living — a way of life that values physical activity as an essential component. We hope that all students will acquire the skills and attitudes that will enable them to incorporate physical activity into their regular routines. **Visual Arts** provide opportunities for all students to perceive, respond to and communicate through images. This involves students in a design process — a purposeful and inventive artistic activity using a variety of materials and processes. Woodwork teaches students to combine creativity, responsible behaviour and practical skills. The value of being able to use hand and power tools, follow instructions and be aware of safety issues is matched by the huge satisfaction of producing something that can be useful or aesthetic, and often both.

**Lino cutting** We hope Misia didn't injure her arm doing this!

**Engrossed** Melissa and Meredith concentrate on their CAPP project.

The past five years of my life have been a time of learning and growing up for me. The friendships and experiences are ones that will last forever, and the time I have spent here has been invaluable. I am only sorry that I have to let it go so soon. It feels like there's so much more I need to do to make myself complete... Thank you to Mr. Dickens, for the inspiration and insight that jump-started me in Grade 8, and to all my rowing coaches, especially Mr. Ganley, Mr. Dorris, and Mrs. Stapp, for their influences in my life.

Five years have gone by fast. Thanks everyone for dealing with my uncontrolled laughing and crying fits. Hopefully at some point I'll learn to control them. Despite the changes that occurred here, it's strange to think that I leave in the exact situation in which I came. Having to start over again will be scary but what I have learned here will make it that much easier. Thanks everyone who helped make the not-so-good times bearable. You know who you are. Last but not least I'd like to thank my producer and husband for making this my best production so far.

See ya! Thanks to my Mom and Dad for giving me the opportunity to come here. I love you guys more than you know! My big brother, you're a goof! Mr. Robertson for all the chats (I know I'll thank you in the future). "Alice" and "Doris" for making every moment a moment of laughter. And a huge thanks to all my friends here. You guys have been unforgettable. "A day late, a buck short." It's the story of my life. It would have been impossible to make it through the rough times without you. Thanks for everything!

All times at Shawnigan are times to remember. Shawnigan has helped me to grow and learn to take advantage of everything life has to offer. Thankyou to Mom and Dad, and a huge thanks to Pat Graham and Suzanne Finlayson for keeping every step of the way real for me. Always remember to smile no matter what goes on in your life, because nothing deserves to take it from you. Be thankful for what you've been given, most importantly, friends.

It doesn't seem that long ago when I was twelve, coming to this new and strange place, only to have my roommate Fiona start an orange Freezie fight with me and then having to "be nice to that really shy and homesick girl, Isabelle" (Mrs. D). I had no idea what "rugby" was, how to wear a skirt, or to address a teacher as Sir. Who knew I'd ever make it out of the hallway from Grade 8 English. Now, five years later, a lot has changed, yet so much has stayed the same. So after all that has happened, with as much anxiety and apprehension as I came here with, I leave. I'll never forget a second of it, the good times and the bad.

I came to Shawnigan wondering how I'd fit in and what this new school would bring me. The first House meeting taught me quite quickly that the only thing involved in being the first floor fag is taking the garbage out for a week. Now, when I look back, where has all that time gone? I've got a lot of great memories and a great bunch of friends. Thank you to the Copeman's boys, Mr. & Mrs. Hall, my rugby coaches, and most of all, everyone who was there for me when I needed them. I came to this school in Grade 8 and a path like an eternity lay before me. Now, as I finish Grade 12, I look into the next eternity with the same anxiety and fear. "Take it as it comes." It seems only a short time ago that I came to Shawnigan, not knowing what to expect. I was filled with nervous expectations and anxieties. Soon enough, my fears disappeared and I found my rightful place. It's amazing that after only three years, I have made some of the most remarkable friends who I will cherish for the rest of my life. Many people have contributed to my most memorable experiences and it is them that I have to thank. I couldn't have done it without the persistence, love and guidance of my parents. Without them, I wouldn't be the person I am today. As I go into the future with the same apprehensions, I look back and remember my short stay and how it changed the way I saw so many things. Someone told me that if you can count your best friends on one hand, then you are lucky. I consider myself extremely lucky.

For the past four years I've been stuck in Shawnigan. I'd like to take this opportunity to thank my parents for giving me the chance to enlighten my educational life and my Auntie Lee for watching my back in Grade 9. I would also like to thank Aida for just being my big bro. This school has turned me from a unorganised stupid person into an organised stupid person. I am grateful for this.

A special thanks to everyone who has done something memorable in my life, and has helped me to grow and become the person I am today. To my parents and my brother, Austin, thanks for all your support and for believing in me always.... I love you guys. And to Val....We made it!

Money makes rich people, love makes priceless souls.

This is for the school. Not just the buildings but the people that cause the buildings to dance and laugh and hold memories dear to my heart.

When I saw you yesterday,  
A feeling came over me, anyway.  
Trying to stay away from you,  
Made this feeling more and more true.  
The feeling for you isn't gone,  
A stroke of love was shown.  
After all this time passed by,  
A love for you still, why?  
Maybe the times we've spent,

Are letting me know where they went.  
For years I've hid this desire,  
Casting your pictures in fire,  
Making sure there was no trace,  
Of you in my place.  
No matter what, I see;  
A stroke of love will always be,  
In my heart like this,  
Because you are what I miss.

Never before have I felt such reluctance and bliss at the same time, to be leaving something that has been such a big part of my life for the past 3 years. I have met many amazing people, and have made friends whom I will forever cherish. However, now that it is the end of Grade 12 I look back and regret never having got to know some of the people that do not stand in the spotlight, yet make this school what it is. Thank you to my friends whose personalities timelessly reminded me why I came to this school, and thank you to my sister, Inga, for being there when I need her most.

These are some of my memories from my five years here. In Grade 8, new faces, new friends, detentions, B's, prank wars and Sean Promislow. In Grade 9, more girls that would not go out with me. In Grade 10, a girlfriend, Soccer J.S.A's (getting revenge), 4 weeks of Wilbur and in Grade 11, a new girlfriend. In Grade 12, being the oldest in the school, best friends and my first Mohawk. I would especially like to thank my Mom and Dad for all they have done for me, especially sending me to Shawnigan for five years. Without them I wouldn't have had half these experiences. So, thanks again Mom and Dad. I couldn't have done it without you.

It seems weird to be leaving Shawnigan after five years. This school has been my life and it will be strange adapting to a 'normal' life. A boy woke up and found himself in a strange land. In this land lived a unique group of inhabitants. These people didn't like strangers, yet they extended their welcoming hands. The boy ignored them and dwelled on the thought of returning home. He was miserable there. One day the boy attended a festival put on by these people. It was here he found his answer. He realized he could never go home, and that this strange land was to be his new home and these unique people would be his new family. From that night on, the boy slept with a fulfilling smile on his face.

My list of appreciation is long, and it should be no secret to those of you on it. This leaves only the obvious. Thank you Shawnigan for the chapter of my life that has offered me more direction than any other.

My four years at Shawnigan have left me with memories that I will never forget. The bonds that I have made here are so strong and I know that neither time nor distance will ever break them. Thankyou to my parents for making the right decision and to my friends for being there. For that, I am forever in your debt.

My times here at Shawnigan have been special ones. Friendships made here will never be forgotten. Thanks to all the people who have cared, especially Mrs. D and Mrs. Felix. Special thanks to my Mom for pulling me through the hard times and Dad for giving me the support to make it through the five years. All I can say is good-bye and hopefully we'll all meet again in the future.

My 3 years at Shawnigan have gone by so fast and the memories that I have will be with me for ever. I would like to thank my parents for all their support and all those friends who were there for me. I learned and experienced a lot of things while I was at Shawnigan and I made some great friends while I was here. Good luck to all of you if the future.

From the day I entered through the front gate, to the nights I struggle with the tedious prep, this place called Shawnigan remains a place of hidden treasures and lasting memories. It has been a privilege to have the experience of living here the last two years and I would like to thank my parents and sister. Then there are the friends that made it all happen. We ride through the bad times and continually laugh at the good ones. As for the Grad Class, we are now part of Shawnigan history and we will leave with memories engraved within us, wherever we may go in our futures.

These last five years have had their ups and downs yet my friends managed to stand by me throughout the trip. I'd like to say "Thankyou" to Erin and Helen for always being there, both Peters for being someone to talk to, Mr. Gueulette for the music, Mr. Anderson for remaining my advisor and putting up with me, and Lake's for teaching me how to put up with people. I also owe a special debt of gratitude to my Mother and Father, and my three elder brothers whom I love dearly.

Thankyou both my Maddies: your unquestionable love and immeasurable support have served as my backbone. I love you (and despite our distances, James, I love you too) To my friends, wherever we have met. I love each and every one of you.

I found the decision spill from my lips like lightning bolt

I came to Shawnigan in Grade 8 and my first impression of it was, "Get me out of this prison". As the years went by, I have made a lot of really good friends and many unforgettable memories. I would like to say thanks to my parents for sending me here and for not letting me leave even though I cried and begged for mercy. I would like to say thanks to Mr. Samuel for keeping me out of trouble and making Ripley's the best House to live in. Thank you Wes, for being my roommate for four long sweet years.

My years at Shawnigan have been enjoyable and have taught me many things about independence and myself. The years I spent here will leave an everlasting imprint on me with many fine memories. I would like to thank my Grandpa for pointing me in the right direction and for keeping me in line. Also, to Annette and family, for the motivation and the confidence you had in me. Last, my friends at Shawnigan, we've had some good times and I wish you the best in your future endeavours!

Looking back at my 4 years at Shawnigan, I can honestly say that I will never regret the decision to come here. The friends whom I have made over the years have taught me so many important lessons of life and friendship — I know I will miss you all. I would like to thank Mr. Samuel, Mr. Cox and Mr. Robertson for their constant support and for giving me an opportunity to prove myself. Thanks Mom, Dad and sisters for your love and thanks to the House for making me proud to be a member. I guess I'm just lucky to have started off on the right foot! And in the end, good luck to the Grads and thanks for the good times.

Deciding to come to Shawnigan in Grade 10 was a great choice for me. I have had some of my best experiences and memories here. To my teachers, thank you for preparing me for the future. To Mr. Samuel and Mr. Cox, thank you for looking out for me and keeping me in line. To my friends, you're a great crew. Mom, thank you for working hard and giving me this opportunity. Camara, thank you for your love. I will miss you and always remember you.

First and foremost I want to thank my father. He was there when I needed him the most, and he was there even when I didn't think I needed him at all. Without him I would not have graduated. I want to thank the School for letting me continue my education here. Without Shawningan, I would not have got this far. I will miss all the friends I've made here — you know who you are. We've shared a lot of good experiences and I will never forget you. As we leave the gates of SLS we leave behind a part of ourselves and at the same time we will carry a part of SLS with us for the rest of our lives.

From the small town of Chetwynd to Shawnigan was a big step for me. Shawnigan definitely changed my life for the better. I have experienced many different things and met a lot of funny and interesting people. I have a ton of memories that I will never forget. (Unless I get another concussion). My friends here, have been the most important part of Shawnigan for me. From the advice they have given to laughs we have shared. I'd like to thank all of them for being there and making my experience here so enjoyable. My thanks also go out to Mr. Hall, Mr. Patel, Mr. Sigfstead, Mr. Rolston, my family and the best House, Copeman's.

First of all thanks to all who have helped me at Shawnigan. To the tribe members, especially the elders and the young bucks, you are the best. Favourite memories from the past five years of my life are: tree hunting, the keywatcher, skiweek, rugby, Das Boot, and Copeman's House itself. Don't take anything for granted because it goes by too fast. Goodbye to all the people I will probably never see again but keep in touch because we all have something in common. We all survived Shawnigan Lake School.

Shawnigan has given me many memories and I will really miss it. There are a lot of people who have made my stay here as good as it was. They know who they are. There are many people I would like to thank. They too know who they are. I will miss all the things I will leave behind. I don't claim to be going anywhere, but who knows? If anyone is ever in Calgary, I am on the last page of the phone book!...Bye!

Thank you so much to all the friends and teachers that have made the past five years at Shawnigan so memorable. May the bonds formed here hold strong as we go our separate ways. An extended thank you to Aud, you have always been there to keep me happy, to my Mom for your quiet support and to Dad, you live on within me every day. I have enjoyed the many experiences here, and guarantee that everyone who endures their time at Shawnigan will gain fulfilment in the end.

My time here is done. It doesn't seem like very long ago when I first walked onto this campus as a shy, innocent, anxious 13 year old. Things have changed ... or have they? I don't know what I will be able to recall further down the track, but I do know I can't forget it all. Thank you to all those people who have helped me push through these last few years, and with whom I have had some of the happiest times — you know who you are. To my Mom and Papa, I don't think I could thank you enough for your sacrifice. At least some good came out of it, I love you.

Congratulations  
to the  
Class of '98

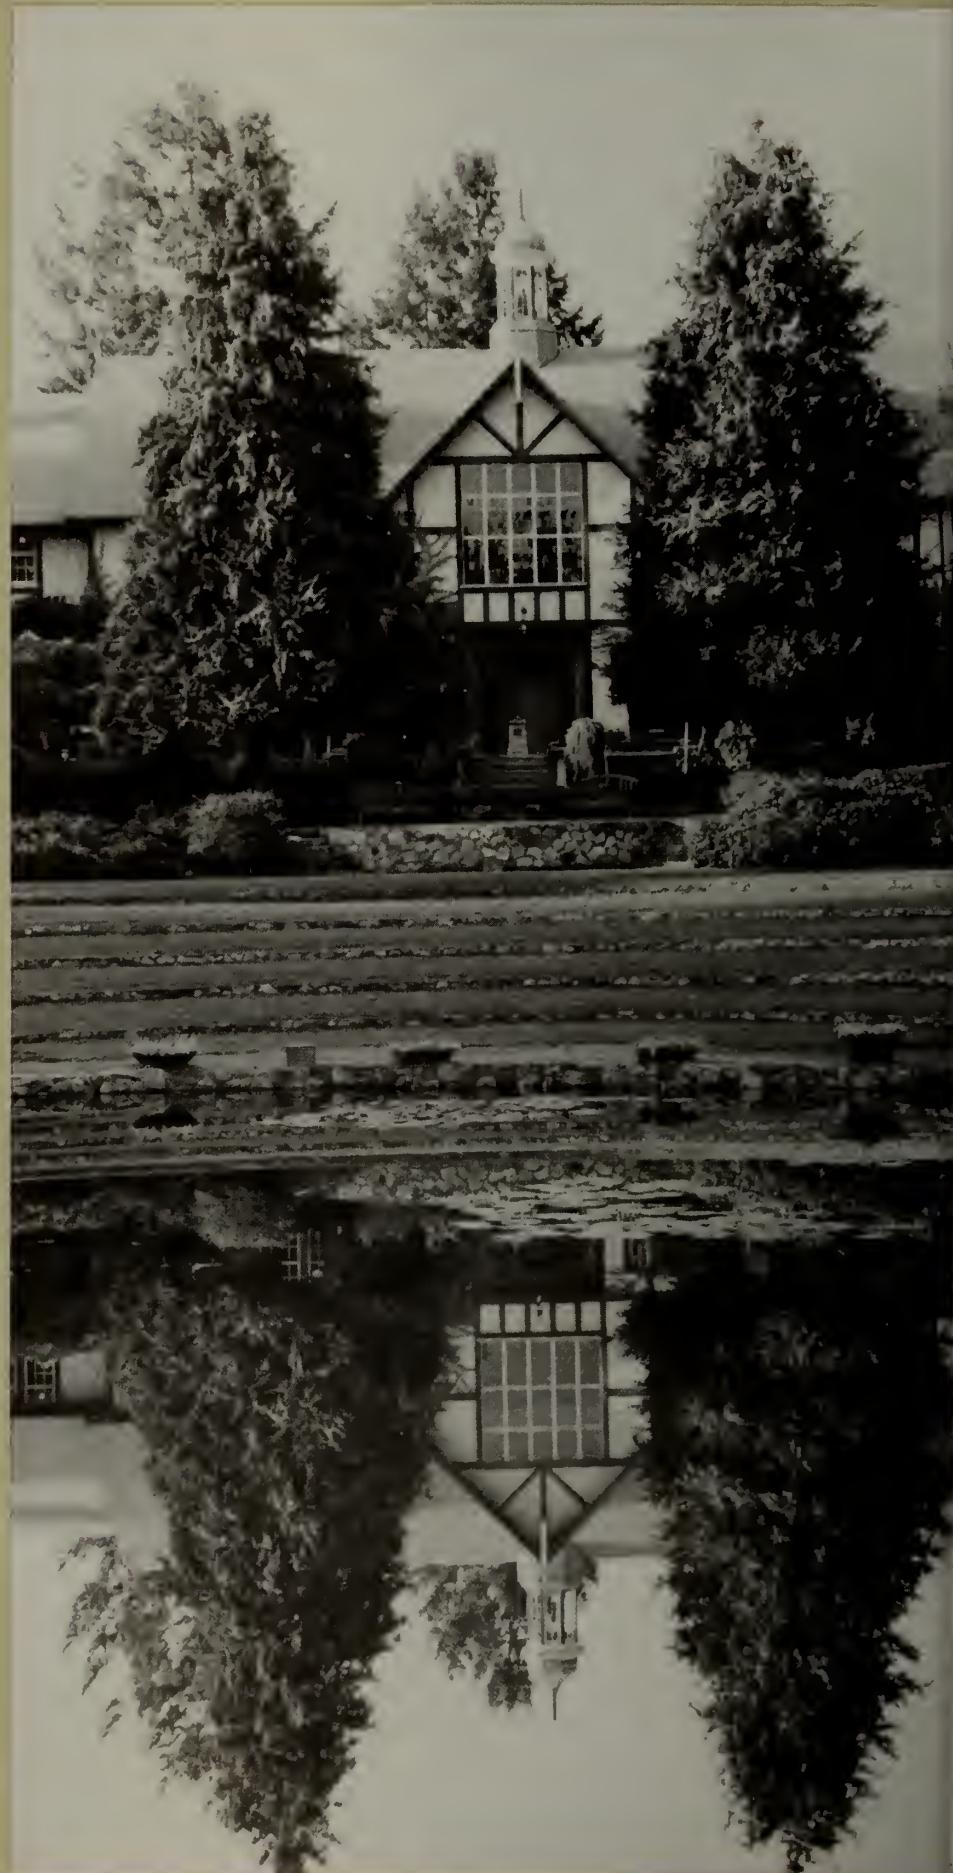

We hope you have all enjoyed reading this book as much as we have enjoyed collecting and sorting all your memories. We have attempted to capture every aspect of joy, pain and personal memory in one cohesive book. You may read this Annual once and not open its cover again for years, or you may read and re-read it until next year's book arrives. Hopefully, each one of you will once again, years down the road, crack the spine of this memory-filled journal and reflect upon 1997-98 as a year never to forget.

Lake Superior Provincial Park. Superior Provincial Park is a provincial park located in the Algoma District of Ontario, Canada. It is situated on the north shore of Lake Superior, the largest lake in North America. The park covers approximately 1,600 square kilometers (620 square miles) and includes several islands and peninsulas. The park's name is derived from the large body of water it borders. The park is known for its rugged terrain, pristine forests, and clear, cold waters. It is a popular destination for outdoor enthusiasts, particularly those who enjoy hiking, backpacking, and canoeing. The park also features several campgrounds and lodges for those seeking a more traditional vacation experience. The park is managed by the Ontario Parks system and is open year-round.
